

POLICY OF BLACK BULL GROUP

Mission

Be ready to offer to our most demanding customers innovative and effective solutions for their critical logistical, security and intelligence requirements, without limits, 24 hours per day, 7 days per week.

Vision

Be recognised as the best international alternative in the provision of logistics intermediation services, adapting to the real needs of each organisation and guided by our values.

We maintain, develop and improve an Integrated Management System for Quality, Environment, Health and Safety, Emergencies, Security Operations, Supply Chain Security, Anti-Bribery Management Information Security and Cybersecurity.

Basis of the System

Guarantee the achievement of our customers' requirements, optimizing the price, meeting the specified deadlines and quality terms.

Comply with all legal requirements, including those relating to bribery, as well as any other requirements to which Black Bull subscribes.

Protect the environment and prevent pollution, minimizing the negative environmental effects produced by our activity. Continuously improve our performance, and the effectiveness of our Integrated Management System.

Establish safe and healthy working conditions and eliminate hazards and reduce OSH risks.

Prohibit bribery, encourage the raising of concerns and penalize non-compliance, without fear of reprisals.

Commitments

Communicate and extend our best practices in health and safety, quality, environment and anti-bribery to everyone who works at Black Bull or on its behalf.

Establish, review, and maintain objectives that allow us to measure the degree of compliance and adequacy with company requirements.

Train and raise awareness among staff on Quality, Environment, Health and Safety, Emergency and Travel Management, Supply Chain Security, anti-bribery and Information Security and Cybersecurity.

Comply with applicable requirements and implement measures based on confidentiality, integrity, and availability, as well as respect for human rights.

Provide a framework for managing security threats and risks in its operations.

This POLICY is disseminated and assumed by all the people who work and/or collaborate with Black Bull Group, being aware of their responsibility and the importance of their participation in order to achieve the planned objectives. It is also reviewed to ensure that it is appropriate to the nature, magnitude and impacts of our activity, and that it provides the framework for setting and reviewing the objectives of our organization.
